

ARIADNA MONTSERRAT RAMÍREZ MATÍAS

Fullstack Web Developer | Frontend · React · TypeScript · UX/UI

ariadnamts98@gmail.com · +52 951 218 9458 · linkedin.com/in/ariadnaramirez · github.com/AriadnaRamirez

PROFILE

Fullstack web developer specialized in Frontend, React, and TypeScript, with hands-on experience in SaaS products, websites, and custom solutions for real clients; I build responsive interfaces, reusable components, and REST API integrations, taking part from needs analysis and UX/UI through implementation, testing, debugging, and deployment. I combine frontend development, UX/UI judgment, and analytical thinking to create functional experiences aligned with user and business needs, with complementary experience in web optimization and basic SEO applied to real projects. I use generative AI as a support tool in design, prototyping, and development, reviewing, adapting, debugging, and validating generated code.

EXPERIENCE

Freelance Web Developer — Independent work

Aug 2026 — Present · Oaxaca, Mexico

Custom web solutions for real clients, covering architecture and UX through development, SEO, and production deployment.

PROJECT: Grupo CRM Extintores

- Built an end-to-end responsive institutional website for a real client, from architecture and content structure through development and production deployment.
- Defined navigation experience and content organization, prioritizing clarity, accessibility, and conversion.
- Implemented a 50+ product catalog with individual detail pages, services, FAQ, contact, and WhatsApp quote CTAs.
- Applied basic on-page and local SEO as part of site optimization.
- Handled deployment on Vercel and related domain and publication setup.
- Worked directly with the client to translate business needs into web solutions.
- Used generative AI tools as support during implementation and debugging, manually validating the code and final result.

Web Developer — GROVA Marketing

Project-based · Aug 2025 — Aug 2026 · Remote

Websites and digital products for agency clients, focused on frontend, UX/UI, APIs, and maintenance.

PROJECT: SENDA

- Built features for a multi-store SaaS SPA for managing appointments, patients, services, products, and staff.
- Implemented 12 CRUD forms with React, TypeScript, Formik, and Yup, and extended a dynamic form system based on JSON configurations.
- Built appointment management flows and reusable components.
- Implemented global state with Zustand, including session and store context.
- Integrated REST APIs with JWT authentication.
- Ran frontend-API integration testing and debugging with Chrome DevTools and Insomnia.
- Worked with Git/GitHub using branches, pull requests, and code review.

PROJECT: HMDV — Hotel Marqués del Valle

- Conducted UX/CX audit, page architecture, wireframes, and high-fidelity prototype in Figma/Figma Make with marketing and leadership.
- Built the complete frontend using React, TypeScript, and Vite.
- Implemented a responsive multipage experience, bilingual ES/EN and multi-currency.
- Built rooms, booking, restaurant, gallery, blog, travel agency, location, FAQ, and contact sections.
- Designed and optimized the booking flow, prioritizing room discovery, CTA visibility, and reduced friction.
- Used AI tools such as Codex and GitHub Copilot as development support, validating and adapting the code. Frontend integrated in production.

PROJECT: FitPlus

- Managed content updates and changes for promotional campaigns in production using WordPress and Elementor.

Stack: React 19 · TypeScript · JavaScript · Vite · Formik · Yup · Zustand · Tailwind CSS · Material UI · Motion · REST APIs · JWT · WordPress · Git · GitHub

STUDENT PROJECTS

ServiYApp — Frontend Developer · Team of 6 · Next.js · React · TypeScript · Zustand · Socket.IO · Mercado Pago · Tailwind CSS

- At-home beauty services marketplace with client, provider, and admin panels.
- Implemented authentication, Google OAuth, role-protected routes, and session persistence with Zustand and JWT.
- Integrated Mercado Pago checkout with support for MXN, COP, and ARS.
- Built real-time chat with Socket.IO, including history, online/offline status, typing indicator, and read receipts.
- Built the backoffice with metrics and document approval.
- Took part in development and deployment via Vercel and Render.

EDUCATION

SoyHenry — Full Stack Web Developer Bootcamp

May 2025 — Nov 2025

+800 hours · React · Node.js · TypeScript · PostgreSQL · Git/GitHub · Scrum

EBAC — UX/UI Design Diploma

2024

Universidad La Salle Oaxaca — B.S. Civil Engineering

2015 — 2020

GPA 9.2/10 · Class valedictorian · Hermano Miguel Febres Cordero Medal · Honors

The University of Kansas — Graduate Studies in Civil Engineering

Aug 2022 — Jan 2023

ADDITIONAL TRAINING

Generation Mexico — AWS re/Start + AI Foundational · Cohort 03

Selected · Full scholarship · Starts Oct 12, 2026

Intensive training program in cloud computing, AWS, Linux, networking, and artificial intelligence (15 weeks). Planned official AWS certifications upon completion: AWS Certified Cloud Practitioner · AWS Certified AI Practitioner.

EPAM — IT Operations and Support Training Program

Oct 12 — Dec 5, 2026

Training program focused on IT Support, IT Operations, Service Management, Knowledge Management, troubleshooting, and technical support.

Global HITSS — Global HITSS Talent Seedbed

Oct 28 — Dec 17, 2026

Training and first tech job program aimed at bringing junior talent into the IT labor ecosystem through practical training and mentorship.

Junior Achievement Americas — Mujer Digital · 7th cohort

2026 · In progress

Training in cybersecurity, networking, and support, with employability mentoring. Cisco Digital Badges: Introduction to Cybersecurity · Networking Basics · Network Defense.

SKILLS

Frontend: React · Next.js · TypeScript · JavaScript · Vite · HTML5 · CSS3 · Material UI · Tailwind CSS · Redux · Zustand

Backend & APIs: Node.js · Express · REST APIs · JWT · TypeORM · Mongoose · PostgreSQL · MongoDB · SQL

UX/UI & Testing: Figma · Figma Make · UX Audit · Wireframing · Prototyping · Formik · Yup · Jest · Vitest · React Testing Library · Chrome DevTools · Insomnia

Web: Responsive Web Design · Web Performance · WordPress · Elementor · Basic SEO · Local SEO

Cloud & Deployment: Vercel · Render · GitHub Pages

Development & AI: Git · GitHub · Branching · Pull Requests · Cursor · Cursor Agents · Codex · GitHub Copilot · Prompt Engineering · AI-assisted Development

CERTIFICATIONS

Full Stack Developer Certificate — SoyHenry

2025

UX/UI Design Diploma — EBAC

2024

Cisco Certified Support Technician (CCST)

In progress

Cisco Digital Badges

2026

Introduction to Cybersecurity · Networking Basics · Networking Devices and Initial Configuration · Endpoint Security · Network Defense

Python for Data Analysis · Programming with Python — Emerging Technologies Institute

2020
